EMR Awards Majority of Grants to University of Alberta

The federal Department of Energy, Mines and Resources (EMR) recently announced the awarding of research grants totalling almost \$1.4 million for 1985-86 under its Research Agreements Program. Our University received more of these grants than any other university in the country.

The funds are granted on the basis

of departmental priorities in areas where research is most urgently needed. Approximately 47 percent of the grants awarded this year will be used for studies in earth sciences, 31 percent for energy research and 22 percent for minerals research.

University researchers received 15 of the 161 grants awarded by EMR.

The recipients are:

- V. Chamberlain, Geology, age dating of paleomagnetically analyzed early proterozoic rocks of the Slave Province;
- D. Cruden, Geology, geotechnical characterization of materials in slope movements in the Cordillera by geochemical markers, Michigan Basin;

- F. Hein, Geology, sedimentology and geotechnical properties of surficial (upper 3m) bottom sediments, Baffin Island Fjords;

- F. Jones, Physics, an investigation of the relationships between geothermal and other geophysical and geological data in high temperature regions of the western Canadian sedimentary basin;

- B. Jones, Geology, stratigraphy and facies relationships of Middle to Upper Devonian clastic formation, Melville Island, Canadian Arctic Archipelago;

- R. Morton, Economic Geology, the use of LANDSAT-MSS and TM-data, together with geological data bases, for possible application to mineral exploration in western Newfoundland;

- B. Nesbitt, Geology, an investigation of the origin of gold in the White Channel gravels of the Klondike, Yukon;

- S. Pemberton, Geology, ichnology of the cardium formation subsurface analysis of the Pembina Field;

- R. Rink, Electrical Engineering, optimized microprocessor control of heat pump/heat storage systems;

- B. Patchett, Mineral Engineering, investigation of weld overlay disbonding of clad steel;

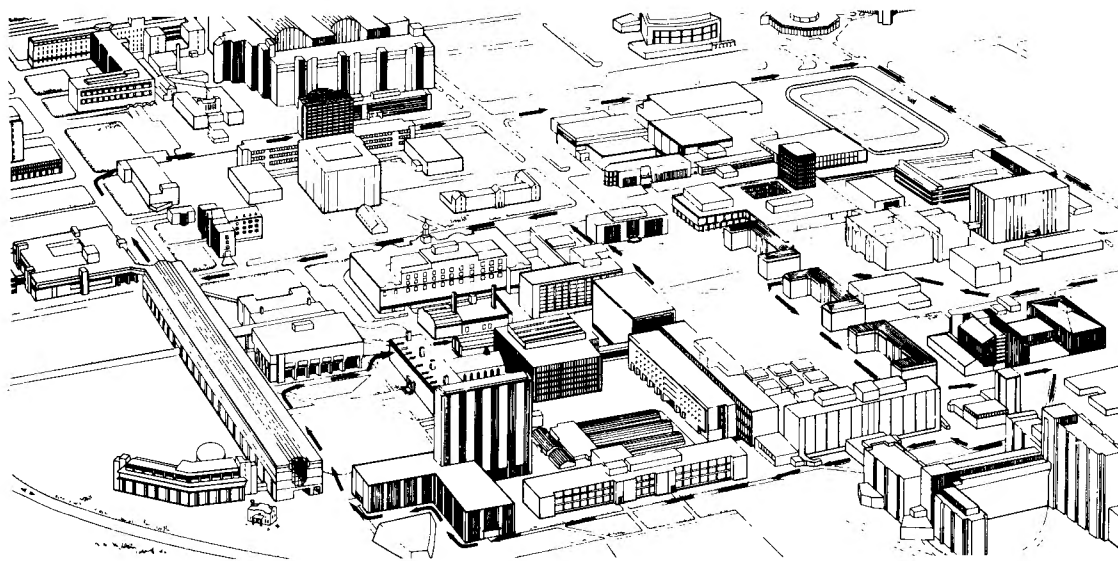

- G. Sadler, Mechanical Engineering, a solar-assisted heat pump;

- F. Schwartz, Geology, a three-dimensional model for radioactive contaminant transport;

- J. Scott, Civil Engineering, pressurized core sampler for oil sand and heavy oil formations;

- B. Scarfe, Economics, determinants of exploration and development activity levels;

- D. Wilson, Mechanical Engineering, building occupancy effects on air infiltration heat losses. □

Physical Activity Day is 30 May

All Aboard the Ankle Express

Thursday, 30 May, is University of Alberta Physical Activity Day. This event is part of National Physical Activity Week which will be held 25 May to 2 June. Under the auspices of Fitness Canada and Participation, this national event will involve Canadians from all points in the nation. The idea of a Special Week is to provide an opportunity for some people to demonstrate their commitment to fitness and, for others, who keep promising themselves to keep fit, that little

extra incentive to get started.

Hundreds of sports clubs, organizations, agencies and institutions are planning one or more special events during this week to mark their involvement in fitness. At the University of Alberta I have been asked to declare Thursday, 30 May, as our Physical Activity Day, and I am pleased to do so. To provide a focus for our activity, we shall be holding a mass walk around campus. At 12 noon on that Thursday, I invite all Faculty and

Staff members to join me in this non-competitive walk. A circular course will be marked out around the campus. You'll need only to step out of your work location to join us. With Spring now here, I am sure we shall have a bright and pleasant day for our observance of National Physical Week. I hope you can join me.

Myer Horowitz
President

Child Centre's Wherewithal Increased

The campus is pretty quiet on Sunday afternoon but an exception, at least to the northwest, was recorded on 5 May. The University Cheer Song was belted out in Ring House 3 and while the tune may have been a little ragged, a capital 'E' had to be awarded for effort. The vocalists were youngsters who attend the Child Centre in Ring House 3 and they were out to please their parents, teachers and President and Mrs. Horowitz. They were at the (red) Brick Carehouse to applaud the donation to the Centre of some \$1,300. The money, which came from parents' pockets, was presented to Dr. Horowitz by Jackie Taitt. The President, who was representing Dean of Education R.S. Patterson and Elementary Education Chairman Patricia McFetridge, accepted the money and then made a personal donation of \$1,500. A matching grant for the first donation has been applied for.

All monies will go toward upgrading and maintaining various pieces of equipment and the purchase of new equipment such as large building blocks.

Dr. Horowitz's gesture owes something to the fact that he was Chairman of the Department of Elementary

Education in 1969, the year in which the Child Centre, a "kindergarten with 700 corners," was established.

Since the Centre is in a house that was built in 1910, a homey atmosphere is guaranteed. The main floor is divided into three work and play areas while the other two storeys contain offices, a parents' room and storage rooms.

The environment is enriched because of nearby trees, the large amount of danger-free space outdoors and the proximity of Emily Murphy Park and the Education Gymnasium, says Emma Brinson, one of the Centre's two teachers. (The other teacher is Meg Donaldson; there is one assistant, Elise Dubé. The Director of the Program is Janis Blakey, Associate Professor of Elementary Education.)

The tree-lined walkway in the vicinity of the Industrial and Vocational Education Labs and Ring House Gallery is known as the Enchanted Forest and fairies and gnomes live there, evidently.

The Centre runs a winter program and a six-week summer program, the chief difference being that the winter session is for four- and five-year-olds and the summer program is for children aged three to eight years. Students taking Early Childhood Education get involved with the children for varying lengths of time depending on the scope of their practicum assignments.

According to Miss Brinson, the prevailing philosophy at the Centre is that children learn through doing. An activity-based program, one that bears on the developmental needs and interests of the children, is maintained. Field trips are a regular feature and a recent hit was a tour of the *Edmonton Journal's* Eastgate printing plant.

Parents supply a snack four of the five days (the Centre operates from 9 to 11:30 a.m. and 1 to 3:30 p.m. Monday through Friday) and the other, "cooking experience day," allows the children to bring science, math and language arts skills to the preparation of a "nutritional kind of snack" which represents one of the four food groups.

In its 16-year history, the Child Centre has been the home away from home for an average of 32 children per year (winter program only). □

The Child Centre has all the fun of the fair and "the freedom to explore, create and participate is ensured." Funded by the Department of Elementary Education and Early Childhood Services, the Centre also receives monthly enrolment fees from parents.

Canadian Archivists Holding Tenth Anniversary Conference

Our University will host the Tenth Anniversary Conference of the Association of Canadian Archivists (ACA) 11 to 15 June. A fitting move in that the Association was founded here during a meeting of the Learned Societies.

University Archivist Jim Parker estimates attendance at the conference to be 150, and sets the total membership of the ACA at approximately 500.

Sessions will be held in Lister Hall, with the Annual General Meeting being held in Kaasa Theatre, Jubilee Auditorium.

The conference is being sponsored by the Alberta Society of Archivists, the Archives of the Canadian Rockies, Athabasca University, the City of Edmonton Archives, the County of Strathcona Municipal Library, Glenbow Archives, the Historical Society of Alberta, Amisk Waskahagan Chapter, and the Archives at the Universities of Alberta, Calgary and Lethbridge.

The Hon. Marcel Masse, Minister of Communications, has been invited to speak at a luncheon on 14 June, and Allan R. Turner, who was the Provincial Archivist in Saskatchewan and British Columbia, will speak at a

banquet on 13 June. Mr. Parker, ACA President Miriam McTiernan, Ian Wilson, Provincial Archivist of Saskatchewan, architect and engineer John Graham, and Peter Bower, Provincial Archivist of Manitoba, will also be on the list of speakers.

Session topics include "Grantsmanship," "Planning and Design of Archives," "Automated Systems in Archives: Planning and Implementation," "Privatization and User Fees: Solutions to Shrinking Budgets?" and "Archivists under Pressure: 'Burnout'." A number of workshops will also be held.

Participants will have the option of attending extracurricular activities, such as a barbecue at Fort Edmonton Park, a baseball game, a walking tour of Old Strathcona, and a film night with highlights of the Provincial Archives historical moving images collection.

Pre-registration is necessary since workshops are limited to 25 people. Registration forms can be sent to Jean Dryden, ACA Registration, Provincial Archives of Alberta, 12845 102 Avenue, Edmonton, Alberta T5N 0M6. The cost will vary for members, non-members and full-time students. □

ARC Head Appointed Honorary Professor of Science

Robert W. Stewart, President of the Alberta Research Council, has been named Honorary Professor of Science by the Council of the Faculty of Science.

An internationally renowned scientist, Dr. Stewart was the Deputy Minister for the Province of British Columbia's Ministry of Universities, Science, and Communications from 1979 to 1984. He was Assistant Deputy Minister, Science and Technology, Ministry of Education in 1979, and Director General, Pacific Region, Ocean and Aquatic Sciences, Department of the Environment in Victoria from 1970 to 1979.

Prior to holding these posts, he was a Professor of Physics and Oceanography at the University of British Columbia, and a Research Scientist for the Canadian Defence Research Board in Victoria.

He was invested as an Officer of the

Order of Canada in 1980, and is a Fellow of the Royal Society of Canada and the Royal Society of London.

Additional appointments have included Visiting Professorships at Dalhousie University (1960-61), and Harvard University (1964); a

Distinguished Visiting Professorship at Pennsylvania State University (1964); and the Commonwealth Visiting Professor, Cambridge University (1967-68). He also spent three months at the Institute of Atmospheric Physics in Moscow on a working visit.

An alumnus of Queen's University, Dr. Stewart received his BSc in 1945, and his MSc in 1947. He completed his PhD at Cambridge University in 1952, and has produced approximately 60 publications on turbulence, oceanography, and meteorology. □

R.W. Stewart

Faculté Council Celebrates First Anniversary

The Advisory Council to Faculté Saint-Jean recently celebrated its first anniversary.

The Council was established to "promote the Faculté's achievements and its growing national and international status as a leading educational institution and Western Canada's only bilingual post-secondary institution...to help Faculté build its links into the community, using methods old and new, for instance, the Faculté teleconferences across Canada, as well as into Alberta communities."

Two former University Chancellors—Jean Forest and Louis Desrochers—are members of the Advisory Council. Other members are Marc Arnal, representing the Secretary of State in Alberta; Louis Bardollet, Consul-General of France; Jean-Michel Crépin, President, Norwest Soil Research; Lucie Douville, representing the federal government's Commissioner of Official Languages in Alberta, B.C. and NWT; J. Gordin Kaplan, Vice-President (Research); Jean-Louis Lebel, President, Dome Canada; Mary LeMessurier, Alberta Minister of Culture; and Horst Schmid, Alberta Minister of Inter-

national Trade. Ex-officio members are the Dean of Faculté Saint-Jean, the associate dean and the director of continuing education.

Members serve on the Council on behalf of L'Association Canadienne Française de l'Alberta, Canadian Parents for French, and Le Fonds St-Jean, munificent benefactor, for the Oblate Order, which founded the Faculté. □

Improved Telephone Service

The Registrar's Office has installed a highly sophisticated call sequencer on their main telephone switchboard which will sequence calls, give priority to long distance calls on an identified line and provide recorded information outside of office hours. It also has a warning system to monitor load, and permits addition of a second operator to handle peak periods. We expect these features to be particularly useful later this summer for admission queries. *□

*Reprinted from Rumor, Issue No. 8, May, 1985.

University of Alberta Associate Vice-Presidents (Academic)

The Vice-President (Academic) invites applications for two positions in the Office of the Vice-President (Academic): **Associate Vice-President (International Affairs)** and **Associate Vice-President (Information Systems)**. Dr. Ron Bercov will be returning to the Department of Mathematics after five years of distinguished administrative service to the University; the other position stems from a transfer of responsibilities as a result of a reorganization of the senior administration so there will be one fewer Associate Vice-President reporting to the Vice-President (Administration).

The principal responsibility of the Associate Vice-President (International Affairs) will be to coordinate the University's rapidly developing activities in this area. He or she will assist in the development and oversee the administration of major projects as well as providing on-going support and information services to faculty with interests in international areas. This office will also be a first point of contact for international agencies and visitors to the campus.

The Associate Vice-President (Information Systems) will be responsible for coordination of information activities, including the Library, Computing Services, Office of Administrative Systems, Printing Services, the University Press and the University Archives.

In addition to spending about half their time in activities related to their principal responsibility, the Associate Vice-Presidents will advise the Vice-President on a wide variety of academic issues as they arise, and will act for the Vice-President from time to time, for example, on selection committees for academic administrators.

Staff interested in either of these positions should communicate directly in writing with the Vice-President (Academic), Dr. J. Peter Meekison, 3-5 University Hall, by **31 May 1985**.

The Debates and Journals of the House of Commons and the Senate, 1957 to 1984, are now on the shelves of Faculté Saint-Jean Library. The Hon. Marcel Lambert, MP for Edmonton West for the corresponding time frame, presented the volumes to Librarian Juliette Henley (left). Among the attendees were Amy Zelmer, Associate Vice-President (Academic), Dean Gamila Morcos (right), Roger Mahé, Second Languages Program, Alberta Advanced Education, and Perè Georges Durocher, first Director of the Faculté Saint-Jean Library. The 260 volumes are at the disposal of researchers.

Dane Goes Home—By Bus

Jørn Carlsen packed his bags this week, said his goodbyes in the English Department, and set out on his journey home to Denmark. By bus.

After almost five months in Canada, the distances in this vast empty land of ours still surprise him, and before returning to Aarhus, he wanted to enjoy what he had been told is the ultimate experience of distance—the endless, empty miles between Lake of the Woods and Sudbury.

Since January, Professor Carlsen had been sitting in Dick Harrison's chair, as Exchange Professor of English, teaching Canadian literature, while Professor Harrison took over his duties back at the University of Aarhus.

"It was 'scary' being expected to teach that subject here," said Professor Carlsen. But he has, after all, been interested in things Canadian all his life. His grandparents immigrated to Alberta in 1928 and homesteaded near Calgary. Their oldest son, however, chose to stay in Denmark and continue a career in education; and as his children grew up, the grandparents "over there in marvellous Canada" were much in their imagination. Professor Carlsen is, in fact, involved in an on-going project—the preparation for publication, in English and Danish, of letters written from Canada by his grandmother to the son she left behind in Denmark.

At Aarhus, "Commonwealth literature" had long been included in survey courses on English literature. A period spent at an Australian university inspired a member of the English Department to introduce a course on Australian literature, which has been followed by courses on other "Commonwealth literature." Since 1974, it has been compulsory for English literature students at Aarhus to take at least one of these in-depth courses in "Commonwealth literature." *As For Me and My House* was the first Canadian book Professor Carlsen read; the second was *Settlers of the Marsh*, he recalled. "These gave me a taste of the Canadian prairie, and I have always been attracted to it."

While at our University, he taught students at the 200, 400 and graduate levels, and he spoke with enthusiasm about the Department of English. "It is a very strong department in the aca-

demic sense and I am very impressed. I have visited a number of universities and I think this must be one of the best in Canada. That means it compares with the best everywhere."

Professor Carlsen was warm in praise of his students in the higher levels. "They were very prepared and were very good students. It was a marvellous experience to teach them," he said. "But," he added, grimacing at the recollection, "students at the 200 level shocked me with their outright

ignorance in the field of Canadian literature and Canadian history. If you don't know your own history, if you don't know your own literature, then you have no identity."

One or two differences between his university and ours made a particular impression on Professor Carlsen.

Here, the respect automatically accorded the title of professor surprised him. There, the exchange is more easygoing and each professor must earn the right to be regarded with respect.

In other ways too, a Danish university is a very democratic institution. Students and support staff each have a 25 percent voice in running a department, and academics have the remaining 50 percent. When it comes to teaching and curriculum decisions, students and academics each have a 50 percent voice.

Danish students are examined once only, at the end of the year, and Professor Carlsen wonders whether perhaps Canadians are tested too much. He had been amazed to find that "bureaucracy" surrounding exams in the "free democracy" of the New World was much greater than in his part of the Old World.

Professors here work hard, Professor Carlsen commented. "We have a little less to do back home...but then we are also paid less," he chuckled. "I have really enjoyed my stay," he concluded with feeling. "It has been rewarding." And he takes some satisfaction at the thought that the bright and energetic students he taught may now be inspired to go out and change the teaching of Canadian history and Canadian literature. □

Summer Youth University Idea-Oriented

Chances are one in 14 million that the first 25 registrations received for a group of three programs would be divided equally between the three. Yet that's what happened when applications started rolling in for the Faculty of Extension's Summer Youth University (SYU). But then these are unusual courses.

Offered this year for the first time, they are three academic programs, designed to stimulate strong, fresh ideas and to help students identify scholastic objectives as well as personal life goals.

Program A takes a look at family studies, geology, law and vertebrate biology. Program B deals with English, music, physics and statistics. Young people entering grades 9 through 12 (or having completed grade 12) are eligible for both these programs. Program C, mathematics only, is for math whiz kids entering grades 11 and 12 (or having completed grade 12) who are looking for a "math immersion" experience. Instructors for all three programs

have been chosen for their enthusiasm as well as for their knowledge of their subject.

After minds have been exercised in the mornings, bodies will have a turn in the afternoon with a couple of hours given over to instruction (and lots of practice time) in different sports, including racquetball, squash, archery and aerobic dance. Anyone who has energy left after that will be able to finish the day with an optional recreational swim.

Session 1 runs from 2 to 12 July, Session 2 from 15 to 26 July.

The math program will be offered only once, from 2 to 12 July.

Applications are being accepted now and the courses are filling rapidly: registrations are coming in from all parts of the province, even as far afield as Yellowknife.

For out-of-town students, arrangements can be made for 24-hour supervised accommodation at Lister Hall.

For more information, call Maryanne Budnitsky, 432-2395. □

In the Spirit of Cooperation...

The Edmonton Police Department is quite often requested to provide guest speakers and resource persons to various Faculties and groups at the University of Alberta.

In a communique to President Horowitz, Chief of Police Robert Lunney, notes that requests have usually been directed to the organizational unit of interest, for example, Drugs.

Chief Lunney asks that the University community channel all such requests through the Crime Prevention Section, Education Unit, telephone 421-3322.

"We are anxious to register all such requests as a measure of activity and additionally, the streamlining will permit the selection and assignment of suitably qualified speakers," Chief Lunney says. □

people

Sara Stambaugh (English) delivered a paper, "British Sources and Isak Dinesen's Conception of the Gothic," at an international centenary conference in Minneapolis 17 to 20 April. The conference was entitled "Karen Blixen/Isak Dinesen: Tradition, Modernity, and Other Ambiguities."

Myer Horowitz (President) spoke at the annual spring luncheon of the Insurance Institute of Northern Alberta, at the Four Seasons Hotel on 2 May. His topic was "Continuing Education and the University of Alberta."

Eugene Egert (Germanic Languages) read a paper, "Typological Imagery in the German Genesis," at the Rocky Mountain Medieval and

Renaissance Conference in Durango, Colorado, on 20 April.

Joseph Buijs (St. Joseph's College/Philosophy) presented a paper entitled "Faith and Reason in Maimonides, Averroes and Aquinas" at the 20th International Congress on Medieval Studies, Western Michigan University, Kalamazoo, on 9 May.

The Writers Guild of Alberta has awarded a prize to *Douglas Barbour* (English) for his book *Visible Visions: The Selected Poems of Douglas Barbour*. Among the nominees for the Guild's awards program, which recognizes excellence in writing in books by Alberta authors, were *I Hear the Reaper's Song* by Sara Stambaugh (English), *The Myth of the Savage* by Olive Dickason (History), *Harbingers* by Professor Barbour and *The Collected Poems of Miriam Mandel* edited by Sheila Watson (Professor Emeritus of English).

J.P. Das (Educational Psychology/Centre for the Study of Mental Retardation) gave a workshop at the National Association of School Psychology meeting in Las Vegas on 9 April. The day-long workshop on "Cognitive Assessment" was jointly presented with J. Naglieri of Ohio State University.

Olive Patricia Dickason (History) presented a paper, "Historians and Amerindians of New France", to the Organization of American Historians at its annual meeting in Minneapolis, 18 to 21 April. She was also an invited speaker at the "1885 and After Conference" at the University of Saskatchewan, Saskatoon, 2 to 4 May. Her paper was entitled "Frontiers in Transition: Nova Scotia 1713-1769 Compared to the Northwest 1869-1885."

The Mary Alice Scott Book Prize has been awarded to Library Science student *Margaret Herring* for her achievements in coursework related to academic librarianship. The award is presented annually by APLUA—the Association of Professional Librarians on the University of Alberta campus—in memory of former University of Alberta Librarian, Mary Alice Scott. A luncheon to honor Ms. Herring will be held at the Faculty Club on 28 May.

Norbert Morgenstern (University Professor/Civil Engineering) has been elected a Fellow of the Engineering Institute of Canada "in recognition of his exceptional contribution to engineering in Canada."

service information

All information to be included in this column must reach the Office of Community Relations by 9 a.m. the Thursday prior to publication.

Coming Events

Lectures and Seminars

UNDO (University Nuclear Disarmament Organization)

23 May, 4 p.m. Mel Hurtig, "Canada - the Vanishing Country." 1-05 Faculty of Business Building.

Medicine

24 May, 8 a.m. Chief Medical Resident A. Fields, C.C.I., "Internal Medicine Quiz." 2-115 Medical Sciences Building.

24 May, 11 a.m. Matias Roytta, Department of Pathology, University of Turku, Finland, "Demyelination in Vivo and in Vitro." 2J402 W.C. Mackenzie Health Sciences Centre. Sponsored by the Alberta Heritage Foundation for Medical Research.

27 May, 12:30 p.m. Edwin Lam, "Tuberculosis and Liver Disease." 5B304 W.C. Mackenzie Health Sciences Centre.

27 May, 4 p.m. Edward Baker, Chemistry Department, Massey University, New Zealand. "The Structure of Azurin and its Relationship to other Blue Copper Proteins." 117 Medical Sciences Building.

28 May, 8 a.m. F. Harley, S. Kaufman, P. Bowen, P. Ferreira, "Tubular Syndromes #3 - Cystinosis." 2-115 Clinical Sciences Building.

28 May, 12:30 p.m. Henry Wu, Uniformed Services University of the Health Sciences, F.E. Hebert School of Medicine, Bethesda, Maryland, "Biogenesis of Membrane Lipoproteins in Bacteria." 227 Medical Sciences Building.

29 May, 8 a.m. George Karpati, Professor of Neurology, McGill University. "Gene Expression in Muscle Disease." 2-115 Clinical Sciences Building.

29 May, 4 p.m. George Karpati, "Inflammatory Myopathies." University Hospitals Amphitheatre.

Limnology and Fisheries

24 May, 9 a.m. David Lee, Atomic Energy of Canada Ltd., Chalk River, Ontario, "Methods of Measuring Groundwater Seepage in Lakes." CW-410 Biological Sciences Centre.

Medical Microbiology

28 May, 11 a.m. Richard H. Smith, University of Saskatchewan, "T Cell Cross Reactivity Among Paramyxoviruses." Classroom "F", 2J4.02 W.C. Mackenzie Health Sciences Centre.

Anatomy

4 June, 4 p.m. Noel Cameron, University of Witswatersrand, "The Prediction of Adult Height." 6-28 Medical Sciences Building.

6 June, 4 p.m. Dr. Cameron, "In Search of the

Curve." 6-28 Medical Sciences Building. Sponsored by the Alberta Heritage Foundation for Medical Research.

Music

North Power Plant

24 and 31 May, 8 p.m. to midnight. "Bunnie's Disco."

Alberta Guild of English Handbell Ringers

2 June, 3 to 4:30 p.m. "An English Handbell Concert." Up to 20 handbell choirs performing selections of 2-5 octave music. Part of the International Handbell Festival 1985. Free admission. Main Gymnasium, Physical Education and Recreation Building.

Exhibitions

Ring House Gallery

Until 26 May. "Rural Alberta Community Photo Exhibition." A pictorial anthology on contemporary rural Alberta.

Until 26 May. "Flights of Fancy—Newfoundland Yard Art." An exhibition of 100 photographs which illustrate some of the colorful yard art to be found in Newfoundland and Labrador.

Radio and Television

Radio

CJSR-FM, 88.5, Campus Radio. Eclectic programming, including folk, jazz, new music, rock and U of A news and sports coverage. See *Airtight* magazine for full programming details. Send public service announcements to 224 SUB, 432-5244.

Theatre

SUB Theatre

Until 31 May. Alberta Dance Educators Association's Annual Dance Competitions, including the "Show of Stars" 31 May at 7:30 p.m. Call Marie at 451-5426 for more information.

1 June, 8 p.m., and 2 June, 2 and 8 p.m., "Just a Kommedia." A comedy about growing up in Ukrainian Canada...or just growing up a Ukrainian in Canada. Tickets available at all BASS outlets.

4 June, 7:30 p.m. "The Marr Mac Dance School Production." Tickets available at the studio; call Mrs. Steele, 435-4933, for information.

8 and 9 June, 4 p.m. "Cheremosh Dance Competitions." Tickets available at the door. For information, call Corinne at 476-3686.

Studio Theatre

6 to 15 June. "Whiskey Six," a play by Sharon Pollock. Tickets (\$12 and \$15) available at the Studio Theatre Box Office, 3-146 Fine Arts Centre. Information can be obtained by phoning 432-2495.

Matters of Faith

Catholic Campus Ministry

St. Joseph's College Summer Mass Schedule 29 April to 1 September, Monday, Wednesday, Friday - 7:30 a.m., 12:10 p.m.; Tuesday and Thursday - 7:30 a.m., 12:30 p.m., Saturday - 12:10 p.m., 4:30 p.m.; Sunday, 9:30 and 11 a.m.

Notices

Informal Reception for Lorne Leitch

Lorne Leitch, Vice-President (Finance and Administration), is stepping down from that position on 30 June to prepare for his return to the Faculty of Business. An informal reception to honor Mr. Leitch and his wife, Kathie, will be held on Friday, 12 July, from 3:30 to 6 p.m. at University House.

All members of staff and friends and acquaintances of Mr. and Mrs. Leitch are invited to attend the reception.

Persons wishing to make donations toward a farewell gift for the couple are invited to send cheques payable to the "Lorne Leitch Farewell Fund," care of Mrs. June Butt, 3-12 University Hall, prior to 5 July.

Scholarships, Fellowships and Awards

Public Legal Education Award

An annual award of a value of up to \$1,000 has been created by the Sandra Garvie Memorial Fund to assist an individual to pursue a course of study or to undertake research into the library or information aspects of public legal education. The purpose of the grant is to encourage individuals to improve their knowledge in this area. Candidates may be enrolled in a formal course of study at a community college or university or may undertake an independent learning activity.

The award was created to honor Sandra Garvie, Librarian at the Legal Resource Centre of the Faculty of Extension, University of Alberta, from 1976 to 1979, for her contribution to the field of public legal education.

The deadline for applications is 30 June.

For more information, contact: Lois E. Gander, Director, Legal Resource Centre, 10049 81 Avenue, Edmonton, Alberta T6E 1W7. Telephone: 432-5732.

Positions Vacant

The University of Alberta is an equal opportunity employer but, in accordance with Canadian Immigration requirements, these advertisements are directed to Canadian citizens and permanent residents

Non-Academic Positions

To obtain further information on the following positions, please contact Personnel Services and Staff Relations, 2-40 Assiniboia Hall, telephone 432-5201. Due to publication lead time and the fact that positions are filled on an on-going basis, these vacancies cannot be guaranteed beyond 17 May 1985. For a more up-to-date listing, please consult the weekly *Employment Opportunities Bulletin* and/or the postings in *PSSR*. The University of Alberta is committed to the principle of equal opportunity employment.

Positions available as of 17 May 1985.

Bookstore Clerk (\$1,082-\$1,338) Bookstore
Purchasing Clerk I (\$1,161-\$1,442) Materials Management
Clerk Typist II (Part-Time/Trust) (\$580-\$721) Muttart Diabetes Research Centre
